

Hum-Amend MAX

Standard Grade

Soil Amending Ingredients:

TeraVita Leonardite (minimum of 85% humic acids), TeraVita *Soluble* Humate Extract, Natural Earthworm Casting Compost, Kelp Meal, *Soluble* Seaweed Extract, Vegetative Ash (potassium and trace mineral source).

Usage Directions:

Landscape Beds: Apply 5-10 pounds per 1000 square feet of bed area. Applications should be made 1-2 times per year. For regular maintenance, Hum-Amend MAX may be applied over top of ground covers and existing mulch. For new beds, Hum-Amend MAX may be tilled into the upper 6 inches prior to planting or onto the soil prior to mulching.

Turf Applications: Apply 5-10 pounds per 1000 square feet 1-2 times per year.

Potting Mixes and Container Plants: Incorporate 2 pounds of Hum-Amend MAX per cubic yard of potting mix. For container plants, sprinkle lightly over the top of the pots and work the product into the top of the potting mix.
